Please note that this is the *intended* calendar for the 2006-2007 school year. However, administration schedules are of key concern to the Nevada State Board of Education, and the Department could receive direction to change the administration schedule. If changes occur, school districts will be notified as soon as possible.

School districts may offer schools a smaller and more specific window for testing in order to accommodate individual scheduling and shipping needs. Please adhere to the test windows for your specific school district.
